ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 576/85.
Exemption—Ministry of Natural Resources—MNR-30/6.
Made—November 1st, 1985.
Filed—November 7th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-30/6

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The carrying out of the Provincial Parks Program including:

(a) Implementing:

1. Park Management Plans,
2. Site Plans,
3. Resource Management Plans,
4. Visitor Service and Interpretive Programs,
5. Development Activities,
6. Capital Construction and Lease Purchase Projects,
7. Wildlife Habitat Improvement Projects,
8. Operations and Maintenance Plans and Schedules,

in Provincial Parks;

(b) Developing sewage or water works within or for Provincial Parks;

(c) Acquiring land to amend the boundaries of existing Provincial Parks, to complete land acquisition for an existing Provincial Park or for a sewage lagoon in or for a Provincial Park; and

(d) Establishing, amending and rescinding boundary regulations for existing Provincial Parks,

be exempted from the application for the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Ministry of Natural Resources has included a schedule for completion of an Environmental Assessment (EA) for Provincial Park Development with its request for exemption. Pre-submission consultation and completion of the EA for formal submission will be hampered by having to prepare separate exemptions or assessments for all Provincial Park projects at the same time.

B. Park environmental and recreational features could be damaged in the absence of Provincial Park projects that address existing park management problems.

C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Park projects.

D. The realization of the Government's Outdoor Recreation Program Objective and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. This interim exemption will allow Provincial Park plans and projects to continue while the Environmental Assessment on the Provincial Parks' Program undergoes pre-submission consultation.

B. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant, natural and cultural features in the Ontario landscape.

C. The conditions to which this undertaking is subject will ensure that the public and affected Government agencies are informed of the Ministry of Natural Resources' intentions to implement components of the Provincial Parks Program during the period of this exemption order.

D. A number of activities that make up this undertaking are similar to activities that are covered by approved MNR Class Environmental Assessments. The Minister of Natural Resources will apply such parts of the procedures specified in the Class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures, or other procedures are made directly applicable by the Environmental Assessment referred to in reason A.

This exemption order is subject to the following terms and conditions:

1. This exemption order does not apply to any plan or project:

(a) for any provincial park designated by regulation under the *Provincial Parks Act* after June 1, 1983;

(b) where development is likely to affect the habitat of a species designated under the *Endangered Species Act* (except for protecting the species);

(c) where the estimated completion cost of a sewage or water works or a capital construction or lease purchase project is in excess of $2 million, not including any land acquisition costs.

2. This exemption order does not apply to any plan or project which includes the disposition of property or interests in property to the private sector for:

(a) the development of a new commercial recreation facility or the upgrading of an existing commercial recreational facility;

(b) mineral exploration or development,

both of which will be done pursuant to Exemption Order MNR-26/4, as amended from time to time.

3. MNR will continue to provide the Environmental Assessment Branch as well as the Regional Office of the Ministry of the Environment (MOE) with a list of proposed plans and projects (e.g., annual work plans, park retirement, implementation of a new Park Management Plan, etc.) for the Provincial Parks Program no less than 30 days prior to the implementation of any plan or project. The lists will specify the nature, size and location of all plans and projects and will also specify which plans and projects will be carried out pursuant to another exemption order. MNR will notify the above offices of revisions to the lists no less than 30 days prior to the implementation of any such plans or projects.

4. A copy of the project plans specified in the lists noted in Condition 3 shall be available to the public for examination at the appropriate District Office of MNR at least 30 days before implementation commences.

5. Any activity exempt under this Order that would be approved under a MNR Class Environmental Assessment, except that the approval does not apply to Provincial Parks, shall be carried out in accordance with the appropriate Class EA procedures, as though the activity was not in a Provincial Park by:

(a) following the appropriate Class EA procedures, including notification, if there is no Park Management Plan; and

(b) following the environmental quality guidelines and Construction and Mitigation Handbook, if there is a Park Management Plan.

6. Where the Minister of the Environment determines, after consultation with the Minister of Natural Resources, that a proposed plan or project:

(a) may generate an unusual amount of public or Government concern; or

(b) may have unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise,

the Minister of the Environment may, by written notice to the Minister of Natural Resources, direct that an environmental assessment be prepared for the plan or project in which event the plan or project will not be exempt under this Order.

7. Where the Minister of the Environment has given written notice to the Minister of Natural Resources that he is considering the application of Condition 6 to a plan or project, MNR shall not implement the plan or project until 45 days have elapsed from the giving of notice or the Minister of the Environment gives written notice to the Minister of Natural Resources that it is not proposed to require an environmental assessment.

8. During the period covered by this Order, the Provincial Parks Program shall be planned, implemented and managed according to the following Provincial Parks' guidelines and policies:

Ontario Provincial Parks Policy

Ontario Provincial Parks Planning and Management Policies

Provincial Park Management Planning Guidelines—1983

Park Management and Operating Plan Format

Landscape Design Principles and Guidelines

Visitor Services Interim Policy.

9. The guidelines and policies specified in Condition 8 and any revisions or additions to these guidelines and policies will be made available by MNR for public inspection upon request and will be forwarded to the Environmental Assessment Branch of the Ministry of the Environment.

10. Those plans and projects planned under the previous exemption (MNR-30/5), filed as

Ontario Regulation 710/84, but not implemented by the date of its expiry, may continue to proceed in accordance with the conditions of this exemption.

11. Those plans and projects planned under this exemption, but not fully implemented by the date of expiry of this exemption, will have their status under the *Environmental Assessment Act* reviewed in connection with the review of the Environmental Assessment for the Provincial Parks Program and, if provided for in conditions of approval issued in connection with the undertaking, may continue to proceed in accordance with such conditions.

12. This Order expires on October 31, 1986 unless the Ministry of Natural Resources has submitted a Class Environmental Assessment under the Act for the Provincial Parks Program undertaking in which event, this Order shall remain in effect until the date of approval of the Class Environmental Assessment.

13. Where an Environmental Assessment has been done and approval to proceed issued for an individual Provincial Parks plan or project, that plan or project shall be deemed to be a separate undertaking not exempt by this Order. O. Reg. 576/85.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 577/85.
Exemption—Nepean Hydro—NEPE-C-2.
Made—November 1st, 1985.
Filed—November 7th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—NEPEAN HYDRO—NEPE-C-2

Having received a request from the Hydro-Electric Commission of the City of Nepean ("Nepean Hydro") that an undertaking, namely:

the activities of planning, designing, constructing and operating an electrical transformer substation to transform electrical current from 115 kV to 8 kV, on lands owned by Nepean Hydro, in the City of Nepean, being Part of Lot 34, Concession 2, Rideau Front, Township (now City) of Nepean, on a parcel of land in the north-east corner of the lands shown and designated as Part 14 on a Plan of Survey of Record in the Land Registry Office No. 4 for the Land Titles Division of Ottawa-Carleton as 4R-4733 and the obtaining of electrical power therefore from the immediately adjacent Ontario Hydro 115 kV transmission line.

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. If Nepean Hydro failed to meet the electrical needs of a proposed development in the vicinity of the proposed undertaking the public would be injured by the delay or cancellation of the proposed development.

B. If the likely alternative to meet the electrical needs of the proposed development, the provision of 44 kV electrical supply to a transformer station on the same site, which would not require approval under the Act, were carried out, Nepean Hydro and its customers would be damaged by increased costs and the additional impact of the constructing of a 44 kV transmission line from facilities owned by Nepean Hydro to the vicinity of the transformer station site.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The proponent has advised that Exemption Order NEPE-C-1 was granted for the purpose of building an electrical substation on a site approximately 270 metres to the west of the proposed site, but that the City of Nepean has requested that the proponent relocate the substation so that the original site can be developed as a senior citizen's facility.

B. The proponent has advised that it would be more economical and have less impact on the natural environment if the station were built to transform energy obtained directly from Ontario Hydro's adjacent 115 kV power line rather than through new 44 kV transmission facilities which would have to be provided to bring electricity from more remote 44 kV facilities owned by Nepean Hydro.

C. The proponent has further advised that the City of Nepean, which will control the development of a new community on the surrounding lands, have approved the use of this land for a substation site and support the proposed construction of a transformer substation supplied from the adjacent 115 kV power line.

D. The proponent has advised that the transformers and low voltage switchgear will be enclosed in a building similar to those used and accepted elsewhere in the City of Nepean.

E. The proponent has initiated a consultation process with the Ministry and will maintain this contact throughout the planning and construction stages.

This exemption order is subject to the following terms and conditions:

1. This Order shall expire if construction is not commenced by November 30th, 1986 and supersedes Exemption Order NEPE-C-1 which is hereby revoked.

2. The Hydro-Electric Commission of the City of Nepean shall notify the Environmental Assessment Branch in writing that they have complied with the construction requirements of Condition 1.

3. Mitigation of any adverse environmental effects during construction shall be undertaken in accordance with Ontario Hydro's "Construction and Site Restoration Guidelines for Transmission Facilities". O. Reg. 577/85.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 578/85.
Exemption—Ontario Hydro—OH-13/2.
Made—November 1st, 1985.
Filed—November 7th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-13/2.

Having received a request from Ontario Hydro that an exemption order, OH-13, published in The Ontario Gazette on November 13, 1976 be amended to reflect a change in scope of the undertaking to include heat recovery systems so that an undertaking, namely:

The program of planning, designing, constructing, operating and maintaining,

(a) New combustion turbine and diesel generator units at existing sites to cover emergency situations and/or a predicted shortage of generating capacity; and

(b) Heat recovery systems to be retrofitted on existing combustion turbine and diesel generator units to permit the recovery of by-product heat energy which, otherwise would be rejected to the atmosphere.

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The public will be interfered with by the delay in installing:

(i) generating capacity which is required to maintain an adequate power supply, or

(ii) by-product heat recovery systems which will normally displace the use of more expensive, non-renewable fuels.

B. Ontario Hydro will be interfered with and damaged by the undue delay and expense required to prepare individual environmental assessments for projects that are urgent, primarily of a minor nature and have no significant adverse consequences on the environment; and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. The undertaking is unlikely to have any significant adverse effects on the environment and therefore the interference with Ontario Hydro generation and waste heat recovery programs which would be caused by the application of the Act would be undue.

B. The installation of new combustion turbine and diesel generator units and the addition of

heat recovery systems to old units is subject to review and approval under the *Environmental Protection Act*.

C. The only additional effect of this amending exemption order is to exempt heat recovery on existing units which is in accordance with the provincial government policies of energy self-sufficiency and conservation of petroleum products.

This exemption is subject to the following terms and conditions:

1. This exemption order replaces Exemption Order OH-13, which is hereby terminated.

2. Where any activity which otherwise would be exempt under this Order, is being carried out as or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed.

3. Except on projects where construction commences prior to the latter of the following dates, no further work shall be done pursuant to this exemption order after:

(a) the third anniversary of the filing of this Order under the *Regulations Act*, or

(b) such later date as the Minister from time to time gives written notice of to the proponent for the purposes of this condition. O. Reg. 578/85.

(*f*) an insurer within the meaning of the *Insurance Act* whose claim is in respect of a contract of insurance within the meaning of that Act. O. Reg. 618/85, s. 4.

5. The following conditions are prescribed for the purposes of section 91 of the Act:

1. An applicant must,

A. apply in the form provided by the Corporation; and

B. provide or authorize the provision of such information and evidence as may reasonably be required by the Corporation in determing the entitlement to, or amount of, compensation.

2. An applicant must not have settled any part of the claim for compensation against any person in respect of any matter included in the application without the prior written consent of the Corporation. O. Reg. 618/85, s. 5.

6. The following principle must be adhered to in calculating the amount of the payment authorized under section 91 of the Act to each applicant:

1. In the case of an applicant who does not ordinarily reside in Ontario, the Corporation shall not authorize payment of an amount in excess of the amount that would be paid as compensation to the applicant in the other jurisdiction,

A. if the applicant were ordinarily resident in Ontario;

B. if the applicable law were the legislation, in effect on the day the spill occurred, in the other jurisdiction; and

C. if the spill had occurred in the other jurisdiction. O. Reg. 618/85, s. 6.

7.—(1) The following conditions must be complied with before the Corporation authorizes payment under section 91 of the Act to an applicant who is the owner of a pollutant or the person having control of the pollutant:

1. Each application for compensation in respect of the spill of the pollutant by a person other than the applicant and each claim that might be contained in the application must have been settled with the Corporation, the applicant or the insurer of the applicant, or the claim must have been prosecuted to final judgment or dismissal or otherwise finally determined.

2. The application for compensation must be submitted to the Corporation within one year after the day on which all of the liability of the applicant for the spill is finally determined by settlement, judgment or otherwise.

3. The applicant must be liable, at any time after the spill, to pay compensation under Part IX of the Act.

4. Unless the Corporation has waived the requirement, the applicant must have brought action against all persons against whom the applicant can reasonably be considered to have a cause of action in respect of the spill, and,

A. have settled the claim against any person liable at law for the spill or have prosecuted the action against the person to final judgment or dismissal; and

B. where the applicant has obtained final judgment against another person in respect of the spill, the applicant must have exercised all available legal remedies to obtain payment under the judgment.

5. The value of the assets of the applicant, together with the amount of the payment the Corporation proposes to authorize, must be sufficient, in the opinion of the Corporation, to satisfy the total liabilities of the applicant.

6. The applicant must not have been liable at common law for any claims, cost or expense arising out of the spill.

(2) For the purpose of paragraph 6 of subsection (1),

(*a*) an applicant who assumes liability under a provision for that purpose in a contract shall not for that reason alone be considered liable at common law; and

(*b*) an applicant who would be liable at common law except for a provision in a contract to the contrary shall be considered liable at common law. O. Reg. 618/85, s. 7.

8.—(1) The amount of the payment that may be authorized under section 91 of the Act to an applicant who is the owner of the pollutant or the person having control of the pollutant shall be calculated so as to be equal to the lesser of,

(*a*) the difference between,

(i) the total liability of the applicant to other persons under Part IX of the Act plus the amount of the cost and expense incurred by the applicant in respect of the other persons that is reasonable, in the opinion of the Corporation, in preventing, eliminating and ameliorating the adverse effects caused by the spill and in restoring the natural environment, and

(ii) the total of the amounts recoverable in the opinion of the Corporation and the receipts by the applicant with respect to the spill, not including payments to or on behalf of the applicant by an insurer of the applicant,

less the greater of,

(iii) the applicable specified deductible, or

(iv) the amount of insurance coverage the applicant has that is applicable to liability arising from the spill; and

(*b*) the total liability of the applicant to other persons under Part IX of the Act to a limit equal to the aggregate of the limits prescribed by subsection 10 (2) in respect of all spill creditors with respect to the spill plus the amount of the cost and expense incurred by the applicant in respect of the other persons that is reasonable, in the opinion of the Corporation, in preventing, eliminating and ameliorating the adverse effects caused by the spill and in restoring the natural environment.

(2) Where the amount determined under clause (1) (*b*) would be higher but for the application of a limit prescribed by clause 10 (2) (*b*), the amount determined under clause (1) (*b*) may be increased by substituting for the said limit the amount paid by or on behalf of

the applicant to the spill creditor under a policy of insurance.

(3) The amount that would otherwise be authorized for payment under section 91 of the Act to an applicant who is the owner of the pollutant or the person having control of the pollutant shall be reduced by an amount equal to,

(*a*) the amount of any loss, damage, cost or expense in respect of the spill that could have been prevented by the applicant if the applicant had carried out the duty under subsection 81 (1) of the Act to do everything practicable to prevent, eliminate and ameliorate the adverse effects of the spill and to restore the natural environment; and

(*b*) the amount of any loss, damage, cost or expense in respect of the spill that could have been prevented if the applicant had complied with the lawful orders and the reasonable recommendations of all public officers with respect to prevention, elimination and amelioration of adverse effects and restoration of the natural environment.

(4) Where an applicant under subsection (1) is insured by a policy of insurance in a form, filed with the Corporation and accepted for the purpose, providing coverage for at least the amount of the specified deductible and that defence costs are subject to the limits of the insurance, the defence costs paid under the policy of insurance for the claims that are the proper subject of the application shall be part of the total liability referred to in subclause (1) (*a*) (i). O. Reg. 618/85, s. 8.

9. The following conditions must be complied with before the Corporation authorizes payment under section 91 of the Act to an applicant who is a spill creditor:

1. The applicant must have made all reasonable efforts to ascertain the identity of every person liable to the applicant in respect of the spill.

2. (i) The applicant must make every reasonable effort to serve every person whom the applicant, after making reasonable inquiries, has reason to believe is liable to the applicant in respect of the spill with a notice in writing of the application and a claim in writing for payment of the full amount of the loss, damage, cost and expense set out in the application, but this condition does not require the applicant to serve a person whose identity is not known to the applicant if the applicant has made all reasonable efforts to ascertain the identity of the person.

(ii) Subparagraph (i) does not apply where an applicant complies with condition 3 of these conditions before applying to the Corporation for payment.

3. (i) Unless the Corporation has waived the requirement, the applicant must commence an action or actions against all persons liable to the applicant in respect of the spill whose identity is known to or can be ascertained with reasonable effort by the applicant.

(ii) The action or actions must be for not less than the full amount of the loss, damage, cost and expense for which application is made to the Corporation.

(iii) The applicant must prosecute the action or actions to final judgment or dismissal, but a dismissal that is not based on the merit of the applicant's claim does not meet this condition.

(iv) Where the final judgment is obtained by the applicant, the applicant must,

A. make all reasonable efforts to obtain payment of the amount of the final judgment from the judgment debtor or judgment debtors;

B. deliver to the Corporation the bills of costs of the applicant for the action assessed on a party and party basis; and

C. assign the final judgment to the Corporation, if the applicant is unsuccessful in obtaining payment of the full amount of the final judgment from the judgment debtor or judgment debtors.

4. Condition 3 of these conditions does not apply where an applicant applies to the Corporation for payment of not more than the aggregate of $10,000 plus an interim payment of not more than an amount not exceeding 10 per cent of the balance of the applicant's claim up to the lesser of the limit under clause 10 (2) (*b*) or the amount for which the Corporation determines it is prepared to give a consent to settlement of an action or actions by the spill creditor for payment in respect of the loss or damage and,

i. the applicant delivers to the Corporation a release executed under seal by the applicant of all claims against Her Majesty in right of Ontario in respect of the spill if the claim does not exceed $10,000, and

ii. no person liable to the applicant in respect of the spill pays or undertakes to pay the claim of the applicant within thirty days from the day that the applicant serves the last of his claims for payment upon the persons liable to the applicant in respect of the spill.

5. Any amount the applicant receives from a person liable to the applicant in respect of the spill shall be deducted from the amount otherwise determined under condition 4 of these conditions for the purpose of determining the amount that the Corporation may authorize for payment under condition 4.

6. (i) An applicant who commences an action mentioned in condition 3 of these conditions must give notice in writing as soon as possible to the Corporation if,

A. a defendant does not file a statement of defence;

B. a defendant does not appear in person or by counsel at the trial;

C. a defendant does not appear in person at an examination for discovery; or

D. it is proposed to sign judgment upon the consent or with the agreement of a defendant.

(ii) In any of the circumstances mentioned in subparagraph (i) of this condition, the applicant must,

A. deliver to the Corporation such information, documents and evidence as may reasonably be required by the Corporation in order to determine what, if any, steps to require the applicant to take in the action; and

B. take such steps in the action as may be required in writing by the Corporation.

7. Upon request, the applicant must transfer to Her Majesty in right of Ontario any property in respect of which the Corporation proposes to authorize payment in an amount equal to the fair market value of the property.

8. Where the amount of the application is not more than $10,000, the applicant must execute a release under seal of all claims for compensation by the Treasurer of Ontario that may be authorized by the Corporation.

9. The applicant must give interim notice in writing of his loss or damage to the Corporation within thirty days after the day the applicant knows or ought to know of the loss or damage, but the Corporation shall waive this condition where it is of the opinion that the ability of the Corporation to assess the loss or damage has not been prejudiced.

10. The applicant must make application in writing to the Corporation not later than,

A. two years after the day the applicant knows or ought to know of the loss or damage; or

B. one year after the day on which the applicant obtains a final judgment or settles an action for his loss or damage,

whichever is the later.

11. The applicant must inform the Corporation in writing of any change in the information in or in respect of the application forthwith after the change occurs. O. Reg. 618/85, s. 9.

10.—(1) The amount of the payment to a spill creditor authorized under section 91 of the Act shall be calculated in the following manner:

1. Interest on a judgment or on costs must not be included in the amount of the payment.

2. Where the spill creditor has settled a claim for loss or damage as a direct result of the spill with a person other than the Corporation or the Crown without commencing an action, a reasonable amount on account of the spill creditor's legal expenses related to the settlement shall be included in the amount of the payment.

3. Where the spill creditor has brought an action and obtained a final judgment entirely or partly for loss or damage as a direct result of the spill, and for costs,

A. where the final judgment is entirely for the loss or damage, an amount equal to the costs of the action taxed on a party and party basis shall be included in the payment; or

B. where the final judgment is partly for the loss or damage, an amount shall be included in the amount authorized for payment that is in the same proportion to the total costs of the action, assessed on a party and party basis, as the amount of the final judgment for the loss or damage is to the total amount of the judgment.

4. No amount shall be authorized for payment in respect of a claim by the spill creditor in an action that is finally dismissed.

5. The amount that would otherwise be authorized for payment shall be reduced by an amount equal to,

A. $500 in respect of each claim by the spill creditor for loss or damage to property as a direct result of the spill and the expense of preventing, eliminating or ameliorating adverse effects and restoring the natural environment;

B. the amount of any loss or damage as a direct result of the spill that could have been prevented by the spill creditor if the spill creditor had taken reasonable measures for such prevention; and

C. the amount of any loss or damage as a direct result of the spill that could have been prevented if the spill creditor had complied with the lawful orders and the reasonable recommendations of all public officers with respect to prevention, elimination and amelioration of adverse effects and restoration of the natural environment.

6. Where the amount of the spill creditor's claim for loss or damage mentioned in clause 87 (2) (*a*) of the Act is greater than the limit under subsection (2), the limit shall be reduced by an amount equal to,

A. any amount recovered by the spill creditor under final judgment of a court;

B. any payment received by the spill creditor from a relief fund; and

C. the amount of coverage of all policies of insurance, within the meaning of the *Insurance Act*, (other than life insurance) that is applicable to insure the spill creditor in respect of the loss or damage, whether or not the spill creditor becomes or became disentitled or disqualified to receive the amount or, because of neglect or default by the spill creditor, the spill creditor is required or may be required to return the amount.

(2) The limit of the amount that may be authorized by the Corporation for payment to a spill creditor for loss or damage mentioned in clause 87 (2) (*a*) of the Act is the lesser of,

(*a*) the sum of,

(i) where the spill creditor has obtained final judgment in an action or actions for the loss or damages, the amounts of judgments, including costs computed as mentioned in paragraph 3 of subsection (1), and

(ii) the amounts for which the spill creditor, with the prior consent in writing of the Corporation, has settled an action or actions by the spill creditor for payment in respect of the loss or damage; or

(*b*) $500,000.

O. Reg. 618/85, s. 10.

11. The amount of every payment authorized by the Corporation under section 91 of the Act shall be calculated as of the day that the payment is authorized by the Corporation. O. Reg. 618/85, s. 11.

12. The Corporation shall not, without the approval of the Lieutenant Governor in Council, authorize payments arising out of a single spill in excess of a total of $5,000,000. O. Reg. 618/85, s. 12.

14. Where the Crown or the Corporation has consented to a settlement of a claim at less than the amount of the loss, damage, cost or expense incurred by the applicant and has in the consent specified an amount in addition to the amount of the settlement that the applicant may include in the application, the applicant may do so and payment may be made or authorized accordingly. POLICY STATEMENT

TARIFF APPROVAL FOR NEW PUBLIC VEHICLE SERVICES

1. At the time a carrier submits an application to the Ontario Highway Transport Board, hereafter referred to as the Board, pursuant to the requirements outlined in the *Public Vehicles Act* and its associated Regulations, seeking authority to operate a new regular route or new charter service, he/she/it will be required to file a proposed tariff of tolls for that service. This requirement will not apply to Public Vehicle (School Bus) Applications.

   A new service is defined as:

   a. A service not previously provided by an operator for which the Board has issued a new certificate; and

   b. A service which is a transfer of a licence.

2. Where application is made for both a temporary authority and a corresponding permanent authority, proposed tariffs of tolls must be submitted respectively.

3. Where an application is made for a temporary authority only and has a specific expiry date, it shall be accompanied by its corresponding proposed tariff of tolls.

4. once an application and *its proposed tariff of tolls have appeared in The Ontario Gazette* and where no opposition has been filed against that application or its proposed tariff of tolls, the Board shall, after determining whether public necessity and convenience will be served, prepare a Report to the Minister regarding the fairness and reasonableness of the proposed tariff which shall accompany the Board's certificate.

5. Where opposition is filed against the proposed application or against both the proposed application and the proposed tariff of tolls, the Board shall hold a public hearing as required by the *Ontario Highway Transport Board Act* during which, in addition to determining whether public necessity and convenience will be served and a certificate should be granted, the proposed tariff of tolls shall be reviewed for fairness and reasonableness and a Report to the Minister outlining the Board's finding shall be prepared.

6. Where opposition is filed against the proposed tariff of tolls only, the Board shall first determine whether public necesssity and convenience would be best served by granting the authority applied for and, if a certificate is to be granted, then the Board shall hold a hearing in which the fairness and reasonableness of the proposed tariff of tolls may be assessed. Upon the granting of a certificate, the Board shall issue a Report to the Minister of its findings to accompany that certificate.

7. Where a proposed permanent tariff of tolls will replace a temporary tariff of tolls, the Board shall, in its Report to the Minister on the permanent tariff of tolls, outline the details of any differences from its findings presented in its Report on the temporary tariff of tolls.

Effective Date: All applications received on or after the 1st day of March, 1986.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 632/85.
Exemption—Ministry of the Environment—MOE-30.
Made—November 28th, 1985.
Filed—December 4th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-30

Having received a request from the Regional Director, Central Region, Ministry of the Environment, that an undertaking, namely:

The activity of loading debris created by the May 31, 1985 Simcoe County tornados, such debris now resting at two sites, namely, part of Lot 1, Concession 11, Township of Innisfil and part of Lot 15, Concession 5, Township of West Gwillimbury, and such debris including virtually all types of common building materials, household contents, brush and stumps, hauling it to the Metropolitan Toronto Keele Valley sanitary landfill site for disposal, and restoring the sites to a condition approximating that which existed prior to their use for temporary debris storage,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Regional Director, Central Region, that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. Both sites have been assessed by Ministry of the Environment regional hydrogeologic staff and it has been concluded that they are suitable for temporary storage of the debris. However, the sites are hydrogeologically sensitive and are not suited to long term disposal of this waste. Various constituents of the debris cannot be considered to be inert and, therefore, there is a risk of groundwater contamination.

B. The Township of West Gwillimbury has committed with the property owner to remove the debris from Lot 15, Concession 5 by June 1986. The Ministry of the Environment has agreed to remove and dispose of the debris on behalf of the Township of West Gwillimbury.

C. The Ministry of the Environment has indicated to the Ministry of Transportation and Communications that it will try to remove the tornado debris from their property in the Township of Innisfil before winter.

D. Access to the sites and removal of the tornado debris from the temporary storage areas will be hampered by inclement winter weather conditions.

E. Local sanitary landfills cannot accept the large volume of tornado debris without significantly reducing their overall life capacity. The Keele Valley sanitary landfill site is an engineered landfill site with adequate capacity to accept the tornado debris without seriously reducing the life span of the facility.

F. The local public will become increasingly uneasy over the continuing presence of the tornado debris in view of the risk to the environment and the Ministry's commitment to remove it.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. Various constituents of the waste cannot be considered to be inert, and therefore, haulage to an approved sanitary landfill site is the only appropriate disposal method.

B. The local public has expressed concern over possible groundwater contamination from the debris. If the debris can be removed from the temporary storage area prior to the onset of inclement winter weather conditions, then the risk of groundwater contamination from the tornado debris during the spring thaw will be eliminated.

C. Local sanitary landfills cannot accept the large waste volume without significantly reducing their capacity and life span. Metropolitan Toronto has agreed to the use of their Keele Valley sanitary landfill site for disposal of the tornado debris. Disposal at this location will reduce environmental risks associated with the disposal of the debris and because of the size of the Keele Valley site, will not significantly affect its lifetime.

D. The public in the area of the sites have, when enquiring about the sites, been advised that the storage of debris is temporary and that the material will be taken elsewhere for permanent disposal. Local Simcoe County municipalities have been advised similarly and when contacted regarding a possible *Environmental Assessment Act* exemption for the activity have indicated their agreement with the approach.

E. An exemption from the provisions of the *Environmental Assessment Act* will allow the Ministry of the Environment to expedite final disposal of the debris and in so doing honour commitments made after the tornados devastated Simcoe County.

This exemption is subject to the following terms and conditions:

1. The truck haulage routes designated by the Regional Director be followed in order to minimize any potential adverse effects on local Simcoe County residents.

2. A letter be sent to those on the local and county access roads, by the Ministry of the Environment Barrie District Officer, to notify them of the implementation of the undertaking. A copy of this letter be sent to the town clerks of the townships of Essa, Innisfil and West Gwillimbury.

3. The Regional Director ensure that the hauling contractor will securely contain all loads to prevent litter and clean up any litter that does result from the loading and hauling of the debris.

4. Noise, smoke and dust generation be monitored by the Regional Director to ensure that local Simcoe County residents are not inconvenienced.

5. A written report will be prepared by the Regional Director describing the activities involved in the implementation of the undertaking. This report will be made available for inspection by the public and a copy will be submitted to the Director of the Environmental Assessment Branch. O. Reg. 632/85.
